Netti V Base 45 tilt	E-Drive 16", E-Drive NXT 16"

The compatible combinations are documented by Decon Wheel AB on its official website:
www.decon.se/en/adapters.

§ 2 Responsibility

Responsibility for each Product lies with its respective manufacturer. Each party remains solely responsible for the regulatory compliance, safety, performance and post-market obligations of its own Products.

Decon Wheel AB supplies the required mounting brackets and the mounting instructions necessary for performing the combinations as part of its Products.

The Products are separately CE-marked and registered with the respective competent authorities.

Alu Rehab AS undertakes to inform Decon Wheel AB of any design and product changes which may affect the safety or function of the Products in combination, and of any recalls/FSNs/FSCAs which may affect the assembly when Products are combined in accordance with § 1.

Decon Wheel AB undertakes to inform Alu Rehab AS of any design and product changes which may affect the safety or function of the Products in combination, and of any recalls/FSNs/FSCAs which may affect the assembly when Products are combined in accordance with § 1.

§ 3 Responsibility for combinations

The parties acknowledge responsibility for maintaining and reviewing the approved combinations of Products listed in § 1. The parties are responsible for identifying any limitations or restrictions on use when combining the Products listed in § 1.

Provided that the conditions set out in § 4 are fulfilled, based on the performed verification activities, the parties consider the combinations of products listed in § 1 suitable for their intended use and compatible with applicable requirements in laws, regulations, and standards, including Regulation (EU) 2017/745 on medical devices.

The maximum values and restrictions (e.g. user weight or total weight) mentioned in the IFU of both combined products must be observed.

Machining, bending, welding or bracing on any safety relevant components is not allowed.

§ 4 Implementations

The Product combinations covered by § 1 shall be performed in a professional manner by authorized and skilled staff in accordance with each Parties installation and instructions for use (IFU) and manuals provided for the combinations and the product information for each Product.

§ 5 Procedure in case of incidents

Combination Agreement between Alu Rehab AS and Decon Wheel AB

In the event of an incident involving a Product combination, the parties shall inform each other about the incident and prioritize safety and investigation. They shall professionally investigate the incident. As far as reasonably possible, the parties shall provide each other with all relevant information. The parties may jointly appoint a single contact person for communication with third parties. This agreement does not prejudice liability aspects towards third parties and/or between the parties themselves.

Prior to a determination of liability, a root cause of the incident shall be established.

§ 6 Disclaimer

The parties do not accept responsibility for Product combinations if the conditions set out in § 3 and § 4 are not fulfilled.

§ 7 Disputes

Any disputes that the parties cannot resolve together shall be settled by the Act (SFS 1999:116) on arbitration whereby the parties shall agree on the arbitrators.

§ 8 Validity

This agreement shall enter into force when signed by both parties and shall remain in effect until further notice, subject to a mutual notice period of three (3) months. Termination shall not affect the mutual compatibility of the Product combination delivered at the time of termination, unless this is expressly apparent from the motivation for the termination.
